### COUNCILMAN MOORE.

Popular Engineer Wins in the Seventh Ward.

Strongly Endorsed By Petition From Eighty Per Cent of the Voters.

The city Council met Wednesday night in called session and elected James J. Moore as Councilman from the Seventh Ward, to succeed the late J. G. Duncan.

The election was brought about on the third ballot, when Mr. Moore received four of the five Democratic votes. Henry T. Hurt received one vote and Councilman Glass voted uniformly for W. D. Ennis, Republican.

The new councilman was backed by a petition containing the names of 81 of the 101 Democrats in the ward and the council acted wisely in deferring to the so plainly expressed will of the voters of the ward.

Mr. Moore is engineer at the Crescent Mills and formerly occupied a similar position at the Western Asylum. He is a representative of the workingmen, a class of Democrats who have seldom received proper recognition.

At the same time he is a good business man, of excellent character, and his popularity is attested by the unanimity with which his neighbors rallied to his support and gave him an endorsement that the council could not afford to ignore.

Councilman Moore was promptly notified and appeared in open meeting and took the oath of office and entered upon his duties. The Democratic caucus to make nominations for appointive offices was held last night.

### DEATH OF MRS. WYNN.

### SURVEYOR QUALIFIES.

Was Appointed, And Was Elected November 3.

Mr. J. Spurlin Keys, who was recently elected county surveyor, qualified yesterday. Mr. Keys lives at Horace, North-west Christian. He was appointed to fill out the unexpired term of Esq. J. W. Armstrong, dec'd, and was elected Nov. 3, for a full term.

### BONES CRUSHED.

Walter Wilson Suffers Bad Fracture of an Arm.

Mr. Walter Wilson, of Gracey, while loading wood on a wagon, got his left arm caught between the frame and a log, and the limb was broken just above the wrist. Both bones were crushed.

### NAMED SANDUSKY.

The Identity of the Murdered Stranger Established.

The Ninth Negro Engaged in the Crime Arrested and Jailed.

The identity of the man who was murdered by a gang of negroes near Pembroke Nov. 14, has been established. His name was Sandusky and he was a saw sharpener, who was making a tour of the saw mills of Christian and Todd counties following his vacation. He spent the night of Nov. 13 in the vicinity of Bell's Chapel and showed a roll of bills there. He told those with whom he had business that he was a native of Pennsylvania and a cousin of Capt. W. H. Sandusky, the hotel man at Central City. He said his wife and little daughter died some time ago and he had been going about over the country since, hunting work in his line, which he had found profitable and he was well supplied with money. On the next day, Saturday the 14th, he went to Pembroke, showed his money while making change at a saloon, and then went out a mile from town and camped in the woods, where the negroes later crept upon him and murdered him as he slept by his camp fire.

George Holland, the negro who made the confession, implicated eight others. Seven were arrested with him and Frank Sherman, the ninth, was apprehended Tuesday. All nine of them are now in jail. According to Holland's confession Frank Meredith clubbed Sandusky in his sleep, Holland then jumped upon the writhing form and cut the victim's throat and others assisted in mutilating and robbing the corpse and secreting it in a rail pile near by, where it was found two days later.

They got a little more than \$100, which was divided among them. One of the negroes says he got only \$1.50 of the money.

There have been some rumors of a mob, but the officers who arrested the gang will lose the reward of \$400 if there are no convictions. There seems to be no sympathy felt for the prisoners anywhere and some of the local attorneys refused to defend them. Their examining trial, which is expected to establish their guilt, has not been held.

## SPORTS AND ATHLETICS

The defeat of Alec Grant in the A. A. U. cross-country championship race, which made the first defeat that athlete has met in a scratch race in many years, and although it does not make much of a clatter on the cinder path, it does bring to light another champion in the person of John J. Joyce, of New York, who has come before the racing public strongly since 1902, and this is the second time he has defeated Grant, the first time being in a handicap two-mile run.

During the fall months, when football occupies the attention of nearly all the country, the West, the Southland, the universities and the eastern land, the universities and the eastern A. A. U. clubs prepare for the healthiest of all outdoor sports, cross-country running. England and Ireland are the homes of the cross-country runner. From the day that an English and Irish schoolboy is capable of running as far as he can, he takes to cross-country running as a duck does to water. Outdoor life among the English people is looked upon as a necessity, and to this fact alone may be attributed the success of the English distance runners. There are many cross-country runs in the United States that can be called cross-country runs, the taking of fences, water jumps, liverpools, and hedges during the course of the race. One contest, known as the A. A. U. cross-country run, won by Joyce, is held yearly over the Northern and central states, a second cross-country run is held under the auspices of the Eastern Intercollegiate Athletic association over the Morris park course, Thanksgiving day. The distance is the same as that contested in the A. A. U. race, and is about seven miles. Thought to be the eastern part of the country, a number of races are held annually which are given the name of cross-country races, but in reality they are nothing more than road races, and should be classed with track events; though the roads are not always as good as roads, yet the majority are.

Gem-Beauty

The speediest greyhound in America  
is said to be Gem-Beauty, owned by  
the Pembroke Lemmings of Englewood,  
N. J. She is a beautifully  
marked brindle,  
with all the points  
that go to make  
a champion. She  
has shown her  
speed in a  
constrictor trial and  
can cover 100  
yards in six sec-  
onds and a mile in  
a minute and three-quarters. Ex-  
perienced judges have pronounced  
this dog to be the most phenomenal  
greyhound in the country, and all of  
her breed are built for  
running. Every line of their beauti-  
fully shaped bodies and long, thin,  
powerful legs shows it. And they seem  
to know that full well. Often in play  
they will run off for the sheer pleasure of it. A greyhound is the  
only animal living that can raise a  
heavy brush jackrabbit—that speedy  
wonder of the western plains—up  
himself. With dogs of other breeds  
Mr. Rabbit unconcernedly winks his  
eyes and when a greyhound happens  
around Mr. Jackrabbit doesn't stop to  
meditate.

In coursing it is not always the fastest greyhound that carries off the prize, consequently they are not trained for speed alone. Points are given to the dog that does the best in running, leaping, and climbing. In coursing two greyhounds are coupled together with a "spit." The handler gets them well started; then they are "slipped," and they are after their quarry like a shot. With heads close to the ground, their bodies extended, and tails tucked up, they are at their best. If one gets away, it is lucky Mr. Jack escaped them. Coursing was formerly extensively indulged in the vicinity of New York. Latterly, however, a ban has been placed on the sport by the S. P. C. A., and coursing meets are held but seldom, and then with the greatest secrecy. These are mainly for dogs still in existence, but they are very exclusive, as the members have no desire for the searchlight of publicity.

Owing to the erratic playing of the lawn tennis experts last season, the running committee had considerable difficulty in placing them for the annual handicap list. They, however, decided to leave the list blank, and to place first. A curious feature was the failure of the committee even to name the Wren brothers in singles, although they are placed in the doubles.

The woman college record for the 100-yard dash has been broken by Miss Clement, of 1902, at the annual field day of the Illinois College. Miss Clement covered the distance in 13.1-5. The previous record, held at Vassar, was 14.2-5.

## Kendrick-Runyon Tobacco Warehouse Co.,

Clarksville, Tennessee.

We beg to inform planters and the trade generally that the QUEEN CITY TOBACCO WAREHOUSE has been put in order, and with excellent facilities, again opens its doors to the sale of

### LOOSE TOBACCO ON THIS FLOOR,

Light Weights or in Hogsheads, or as our friends may prefer to sell. We invite the patronage of the thousands of our friends, who so liberally patronized us the past season, and earnestly solicit a trial shipment from those who have not so favored us.

We Have Good Quarters for Teams and Drivers in the Warehouse.

That the marketing of Tobacco on the open markets by concentrating the demands, will bring better results to sellers, is self-evident truth. Public meetings, stenographers, typewriters, and their offspring "Resolutions," cannot better conditions. But undivided determination on the part of planters to offer their Tobacco on open markets to the highest bidders will bring face to fact every known demand for Tobacco. Help us to sell your tobacco for good prices by patronizing open markets. It stands planters in hand to think of this.

### WETS WIN BY 219.

Prohibitionists Fought Hard To Defeat Saloons At Madisonville.

Madisonville, Ky., Dec. 12.—The proposition as to whether or not the sale of liquors should continue to be licensed in Madisonville was voted on to-day, and the wets won by a majority of 219. Prohibitionists made a hard fight to oust the saloons. A large body of children marched from one voting place to another, singing songs and carrying banners, and the ministers of the various churches and the ladies of the W.C.T.U. served refreshments in front of the polls, but in spite of all their efforts they were defeated by a majority of almost 2 to 1.

Another Frenchman named Lebady has made an airship that made a trip over Paris, rounding the Eiffel tower.

Mrs. Daniel Manning, of New York, will succeed Mrs. Jas. L. Blair as President of the Board of Lady Managers of the St. Louis Exposition.

Representative Johnson of Franklin county, says a canvass of the members of the coming general assembly shows a large majority for a \$1,000,000 capital appropriation.

The Ohio river is frozen over and navigation is closed. Many steam boats are tied up, with nothing to do but wait for a thaw.

The Pittsburg Post has raised the question that Mayor Geo. B. McClellan, who was born in Germany while his parents were abroad, is not a native born American and is therefore ineligible for President.

Judge B. W. Bradburn, of the Bowling Green district, has decided to contest the election of Judge Joe M. Galloway, Republican, who was elected circuit judge by 259 majority.

The Equitable Company has compromised the \$140,000 policy claims of R. C. Whayne's estate for \$90,000. The estate sued and recovered \$4,000 from the "World" Company, which had accepted this verdict as a test case and made no further compromise it could.

Dr. J. S. Feix, of Louisville, is the best known Baptist preacher in Kentucky, died Tuesday, of a sudden attack of apoplexy. He was 52 years of age. Joseph D. Feix, a bright young lawyer, who died this year, was one of his two sons. He is survived by his wife, son and daughter.

**An Ancient Foe**

To health and happiness is Sorofaria—as ugly as ever since time immemorial. It causes bunches in the neck, disfigures the skin, induces the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease, and the capacity for recovery, and develops into cancer.

A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a drug store and bought Hall's Catarrh Cure, and when I had taken six bottles my neck was healed, and I have been well ever since. I am still alive." Mrs. K. T. Syvera, Troy, Ohio.

**FURNITURE FACTORY**

## One of the Crying Needs of Hopkinsville.

## Local Capitalists Are Seriously Considering the Ques-

tion.

There ought to be all sorts of manufacturers in Hopkinsville, since it is becoming more and more evident every year that tobacco and wheat are uncertain crops for a city of \$10,000 people to rest its prosperity upon.

There is an urgent demand for a woolen mill in Hopkinsville and there is no better place anywhere to locate a furniture factory than right here in this city. Kentucky and Tennessee are set down in government reports as the center of the hardwood district of the United States and there is no reason why hardwood lumber should be shipped out of this district to Grand Rapids and other distant cities to be made into furniture. It could and should be used up by home factories and we are glad to know that local capitalists are beginning to consider this question seriously.

There are patents owned by Hopkinsville men that are expected to revolutionize some of the furniture and these goods should be manufactured here at home. Hopkinsville bids fair to be a "miniature Minneapolis" as a market and it should at the same time become a second Grand Rapids in the manufacture of furniture. Our three trunk lines of railroad, our equable climate, our cheap coal and plentiful supply of all that goes to making expenses light, are factors that commend themselves to thinking men and 1904 is liable to see many important commercial developments in Hopkinsville. Who will start the ball to rolling?

The Old Reliable. Think of this store when you have a Christmas gift in mind. Hundreds of jewelry gifts of an appropriate character and many novelties that will appeal to your judgment. No fancy prices. M. D. Kelly

In addition a natural gas well giving 6,000 cubic feet per day has been struck, and the gas piped to the city.

**T. C. OFFICIALS.**

## Start From Here on Tour of Inspection.

## Accompanied by St. Louis Capitalists in Private Cars

A party of railroad men and capitalists left this city yesterday morning for Harriman, Tennessee, on a tour of inspection of the Tennessee Central railroad, a distance of 200 miles or more. One car from St. Louis contained fifteen twenty stockholders and capitalists who arrived over the Illinois Central yesterday morning. The other arrived over the T. C. the night before and joined the St. Louis party, all leaving together for Clarksville. A slow trip for inspection was made and they arrived at Nashville last night, after numerous stops. To-day the trip will be extended to Harriman.

Among the Tennessee officials were W. H. Fox, superintendent of the Hopkinsville division; G. A. Clark, general manager; Chas. Curry, private secretary to the general manager; J. H. Bonaman, master mechanic; J. C. Davis, roadmaster, and Hon. J. M. Head, of Nashville. The train was made up of two private cars and a baggage car. It was in charge of Conductor S. A. Cherry. W. A. Gailey was engineer in charge of engine No. 10.

## Ten Dollar Bill Turns Up at the Subtreasury.

One of the finest specimens of a ten-dollar counterfeit bill has been discovered. The counterfeit would readily pass anywhere except among expert coin detectors. The paper gives the bill away. The workmanship throughout is nearly as good as in the genuine. It is of the Heavicks issue, and the vignette of the latter is the only bad feature about it that might arouse suspicion. The check letter and number is "E 2183241." It was sent to Washington by a Dayton (Ohio) bank.

## ONE CHANGE.

Dr. Ray To Be Removed As Superintendent.

Other Asylum Officers Will All Be Reappointed By Gov. Beckham.

Frankfort, Ky., Dec. 17.—What changes Gov. Beckham proposes to make in the personnel of the offices of the charitable institutions of the State is the subject of some discussion here. There are rumors of several changes to be made, but only one can be stated positively.

On the 1st of January next Dr. Milton Board, of Breckinridge county, will succeed Dr. W. W. Ray, of Washington county, as Superintendent of the Western Asylum at Hopkinsville. This will be the only change at this institution.

Dr. W. A. Lackey will be reappointed First Assistant Physician; Dr. Stephens Second Assistant, and Dr. Florence Meder Third Assistant Physician.

Dr. Milton Board, the new Superintendent, is well known in medical circles in his section of the State, and is something of a politician, being a member of the Democratic State Committee. He is a young and vigorous man, and is said to be well qualified for the position.

There will be some changes at the Central and also at the Eastern Asylum, but Gov. Beckham has not finally settled these matters, and may not do so for several weeks.

## "STINEY" IS DEAD.

Oswin Steinlen Tires of the Drama of Life.

Ends It All With His Own Hand at Leavenworth, Kansas.

Oswin F. Steinlen, only surviving son of Prof. R. T. Steinlen, of Atlanta, Ga., formerly of this city, committed suicide at Leavenworth, Kansas, Wednesday. He was a sergeant in one of the companies of the United States troops stationed at that place.

Deceased was a printer who was reared in this city and learned his trade in the local newspaper offices. For several years he had been of a roving disposition and finally enlisted in the army in 1901.

The news of his suicide came in a telegram to Judge James Breathitt from an army officer named H. G. Harris. Judge Breathitt forwarded the news to the young man's parents at Atlanta.

The deceased was about 30 years of age and possessed considerable musical talent, coming as he did from a family of musicians.

He will probably be buried at Leavenworth.

### BETHEL COLLEGE NOTES.

Holiday Will Last From Dec. 23 to Jan. 3.

The girls are all looking forward with great anticipation to the Xmas holidays, lasting from Dec. 23 to Jan. 3. The majority of the boarders will return to their homes. Miss Mary Wright will visit Miss Nella Boyd at Cadiz, and Miss Irma Goodwin at Cerulean, during the week. Misses Katie and Annie Hoge and Louise Carr will remain at Bethel. They have issued invitations to a reception to be given on Monday night, Dec. 28.

Miss Nannie Belle Stowe spent Saturday and Sunday at her home near Julien.

The regular meeting of the Kalozetic Society was held in the reading room. Paris was the subject for the afternoon, and its people, situation, churches and palaces were discussed. After the swearing in of the new officers by the retiring president, Miss Katie Hoge, the newly elected president took the chair. On the resignation of Miss Bettie Lee Smith as local editor of the Chimes, Miss Edna Eades was elected to fill her place. Miss Mary Card was elected business manager to fill the place left vacant by Miss Mary Bronaugh.

The Xmas recital will be held in the college chapel on Wednesday, Dec. 23. An interesting program will consist of choruses, quartets, duets, solos, and readings, the same night the Y. W. C. A. will hold a bazaar in the reading room, the proceeds of which will be devoted to missions.

The monthly missionary meeting of the Y. W. C. A. was held on Tuesday afternoon conducted by Miss Susie Cooper. A number of interesting items were read and very enjoyable solos were given by Misses Jones and Mooney.

The Xmas number of the Chimes will be out next week. This magazine is edited quarterly under the auspices of the Kalozetic Society, and this year has a very wide circulation. The staff of editors is as follows:

### BADLY BURNED.

Morton McGhee Has Painful Experience With Wood Alcohol.

Lieut. Morton McGhee was seriously burned about the face last night at his home on Franklin street. When he returned from the armory he went to the bath room and believing that the fire in the heater had gone out, poured a small quantity of wood alcohol in it. A blaze instantly flared up, burning him about the face and forehead. He is unable to be out to day as a result of the accident.—Leaf Chronicle.

### Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for consumption, coughs and colds to be unequalled. A recent expression from T. J. McFarland, Bentoville, Va., serves as example. He writes: "I had Bronchitis for three years and doctor'd all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by R. C. Hardwick, druggist. Trial bottles free, regular sizes 50c and \$1.00.

Address, Dr. R. V. PIERCE, Buffalo, N. Y.

I take pleasure in expressing my satisfaction with Dr. Pierce's Golden Medical Discovery, as a reliable medicine well worth the confidence of those seeking relief. It is certainly a most potent specific for afflictions of the digestive organs, headache, rheumatism, and kindred troubles caused by a disordered stomach.

### THREE CLEVER FISHES.

One Lures Its Prey; Another Shoots  
—Third Uses Man Force.

All fishes do not have sharp weapons with which to keep off their enemies or to use in catching other fishes for themselves, so nature, which looks after all things, teaches them little tricks which they use to great advantage, says the Washington Star.

There is one fish who hides him self in the mud at the bottom of the big rivers in India, where he makes his home, and just peeps his head out to see what is going on. Now this fish has a kind of beard growing on his lips. The hairs of the beard begin wiggling about in the water and the little fishes think that surely they are worms. All little fishes are very greedy, so when they see these hairs they say to themselves "Oh, here are some fine worms let's have a party." Up they swim and begin to nibble at the hairs, but the fish who is in the mud gobbles them up and the little ones do not have any party.

There is another kind of fish who shoots flies and little bugs. He twists his mouth until it is just like a pop gun and he uses a drop of water instead of a bullet. When he sees a fly sitting on a leaf near the water's edge he takes aim very carefully, then pops! and Mr. Fly finds himself knocked into the water, only to be eaten by the fish who has shot him.

Still another strange fish lives in the sea. He is called the sucking fish. When he sees anything he likes very much he simply fastens himself to it by means of a kind of plate on his head. He is so strong that nothing can pull him away.

The people who live near the coast of Africa use this fish to catch turtles. They tie a strong cord to his tail and put him in the water near the place where the turtle is asleep. If they go too near the turtle will wake up and swim away, but the sucking fish always catches him and holds on so hard that the men in the boat pull in fish, turtle and all. So you see this fish is very useful.

### MACHINE-MADE ART.

Brings Good Wall Paper and Furniture  
in Reach of All.

There are people who will say that machine-made industrial art is not industrial art at all, but this is an exaggeration, says the Architectural Record. Provided the original models are good it does not make so much difference how often the copies are duplicated. Every person of taste will, of course, prefer to furnish his house, so far as possible, with objects that have been specially designed or specially selected for their particular niches, just as every genuine artist would prefer to have only one model of his design made—the one which he makes with his own hands. Every succeeding copy which is produced by machinery must take on a somewhat fixed and mechanical appearance. It must lack the final grace and distinction of the really beautiful thing. Yet within this limitation it is obvious that admirable designs in wall paper, fabrics, pottery, rugs and furniture can be indefinitely reproduced, at a cost which will not put them beyond the means of the average mechanic. Almost every object which now furnishes the dwelling of such a man could be enormously improved without any increase in expense over the prices which are now paid, and obviously it is along these lines that people who want a democratic industrial school work. If they would only turn all their efforts to the task of manufacturing wall paper and furniture that was really good and really cheap they would do more to popularize the arts and crafts in a year than the "new artists" will accomplish in a century.

McClure's will be more interesting, important and entertaining than ever. "Every year better than the last or it would not be McClure's."

Great Attraction.

Clay Clement will be seen at

31, in "The New Dominion." This  
is one of the best attractions on the
